GripProtect® Ultra 8 mil Latex **Exam Gloves**

Perfectly balanced for superior protection and comfort

GripProtect Ultra 8 mil Latex Gloves are an excellent choice when a higher level of safety and comfort is needed. These Medical Exam Grade gloves are an ideal choice for protection in healthcare settings against blood, germs and other bodily fluids that may cause infections. They are also popular in light industrial and automotive settings.

The 8 mil-thickness provides better protection than standard 4-6 mil gloves while maintaining good tactile sensitivity and a nice soft fit. Double chlorination in the manufacturing process helps to smooth inner and outer surfaces and reduces latex sensitivity.

- Powder-free
- Non-sterile
- Textured fingertips
- Biodegradable
- **Ambidextrous**
- Meets ASTM standards
